

Dimensional Moldings - Components

Available in a variety of sizes and thicknesses, Dimensional Molding Components offer an easy way to elevate an interior space while keeping it protected. Components can be mixed and matched to achieve various paneled looks in combination with any of the Acrovyn Sheet finishes and even Feature Rails. Perfect for spaces requiring a high-end, non-institutional look—whether it's new construction or a renovation project.

Features

- Available all standard Acrovyn finishes, including solid colors, woodgrains and brushed metals
- Available in a variety of sizes and thicknesses
- Custom trims available
- Can be used in full-height or wainscot applications

Benefits

- Variety of panelized designs are possible by incorporating matching or contrasting vertical or horizontal components
- Pairs beautifully with Dimensional Moldings Feature Rails for a unique or high end look
- Customizable to meet specific design needs
- Low-maintenance solution for a high-end appearance
- Coordinates well with other Acrovyn wall and door products

Applications

- Hallways/corridors
- Reception areas
- Cafeteria/dining spaces
- Common areas
- Lobbies

Building Segments

- Healthcare
- Health & Wellness
- Hospitality
- Education
- Civic & Culture
